Art Unit: 3651

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 1. Claims 1-4, 7-9, 22, 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Wolever (USP 943,329). Wolever discloses a similar system adapted to move a carrier, the system comprising a(n):
 - Plurality of first sending units (37)
 - Receiving unit (34, 35) disposed at the common terminal location
 - First duct system extending from each of the first sending units to the receiving unit (33)
 - First trunk line (EX1, labeled by examiner) having an outlet disposed at the receiving unit
 - Plurality of first branches (30-32) connected to the first trunk line, wherein each other first branches has an inlet disposed at one of the first sending units
 - First power unit (page 2, lines 42-45) in fluid communication with the first duct system, wherein the first power unit is attachable to the receiving unit
 - First seal interposed between the first power unit and the receiving unit (vacuum line 55 is sealed to branch 33 via flange shown at EX2, labeled by examiner)
 - Insertion door (sending units 37 have doors, fig. 1)

Art Unit: 3651

Wherein the other of the plurality of sending units are sealed to prevent fluid communication between the exteriors of the other of the plurality of sending units and the duct system.

Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claim 20, 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wolever.

While Wolever does indeed disclose a plurality of first sending units, a first duct system, and a first power unit, as described above, s/he does not disclose a plurality of second sending units, a second duct system, and a second power unit.

It would have been an obvious to one having ordinary skill in the art at the time of the invention to have provided a plurality of second sending units, a second duct system, and a second power unit, since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art. St. Regis Paper Co. v. Bemis Co., 193 USPQ 8.

Allowable Subject Matter

4. Claims 5, 6, 10-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Ridley whose telephone number is (703) 306-5910. The examiner can normally be reached on Mon-Thur 7:00 am - 5:15 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Ellis can be reached on (703) 308-1113. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7687 for regular communications and (703) 308-0552 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1113.
